

Dallas Intermodal Terminal

Dallas Intermodal Terminal (DIT) is located just 12 miles from downtown Dallas, within the city limits of Hutchins and Wilmer in Dallas County, Texas. This 360-acre facility is designed to support the growing intermodal volume in the region. This central location provides quick access to the counties that comprise 97 percent of the Dallas metroplex population, and is in direct proximity to the five fastest growing counties.

Trucks gain access to the railport via a high-tech, biometric secured AGS (automated gate system) entrance. This technology allows a trucker to process a container through the gate in 30-90 seconds, as compared to a national average of four minutes. Built with quality in mind, this clean, safe and well-lit intermodal facility provides nearby highway and interstate access to maximize trucker convenience.

The railport is located adjacent to Interstate 45 at Fulghum Road - approximately three miles south of Interstate 20. Construction of the facility began in June 2004 and was completed in August 2005.

FACILITY FEATURES

- **387,000 Lift Capacity and 4,100 Parking Stalls**
Increased capacity and more improved terminal efficiency allows for faster container availability.
- **10-Lane Automated Gate System (AGS) Entrance**
Enhances gate capacity to minimize motor carrier congestion and improve gate/terminal throughput. Improves truck turn times, resulting in lower drayage costs.
- **State-of-the-Art Security**
Security fencing, lighting and full gate inspections provide a secure, theft-resistant environment for customer's cargo while at the terminal.
- **Terminal Operations Systems (TOS)**
Real-time software solutions to maximize terminal efficiencies and minimize motor carrier dwell while providing customers visibility of their shipments at all times.
- **24 Hour, Seven-Day-a-Week Operations**
Enhanced customer and motor carrier operational convenience and flexibility.
- **4 Loading Tracks**
Allows for expedited loading/unloading capability, resulting in improved container availability.
- **Repair Buildings**
Allows for on-site repair and maintenance of cranes and ramp tractors to ensure efficient, uninterrupted operations.
- **Customs**
Dallas Intermodal Terminal is located within the Dallas Customs District.
- **Future Expansion**
Union Pacific has designed this new facility with room for future expansion to keep pace with our customers' growth requirements.
